FOREWORD

The *Proceedings* of the American Society for Testing and Materials are published annually and include all committee reports offered to the Society during the current year. Technical papers previously included in *Proceedings* will be found, beginning in 1966, in the *Journal of Materials*, published quarterly in March, June, September, and December.

A complete subject and author index of papers and reports published by the Society, also previously a part of *Proceedings*, will be found in the December issue of *Materials Research & Standards*, beginning in 1967.

A list of the Special Technical Publications published by the Society in 1969 is given at the end of this volume. This supplements the lists appearing in the *Proceedings* from 1948 through 1968 covering all special publications published by the Society up to and including 1968

Nothing contained in any publication of the American Society for Testing and Materials is to be construed as granting any right, by implication or otherwise, for manufacture, sale, or use in connection with any method, apparatus, or product covered by Letters Patent, nor as insuring anyone against liability for infringement of Letters Patent.

The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
